Whole School Teaching and Learning Policy

Our School Mission Statement

To provide Monaco families with a family-owned British curriculum school and an intimate nurturing community that motivates students to become grounded, passionate and aspirational learners. We want our students to enjoy each precious year of childhood as they grow into adults.

Our School Vision Statement

Our vision is to inspire our students to:

- ✓ try their hardest;
- ✓ think boldly, mindfully and creatively;
- ✓ act with integrity and empathy;
- ✓ lead with distinction;
- ✓ serve with a generous spirit –

and enjoy all that our school can offer.

The British School of Monaco approach to learning synthesises traditional, well-honed principles and best practice with ground-breaking pedagogical approaches. Built into the curriculum delivery is an understanding of how children learn and factors affecting their neurological development. This is underpinned by a recognition that the 21st century child is required to be a reflective, resilient and adaptive individual who continually strives to understand more about how they learn, and to learn more deeply, thereby maximising their broader growth and development.

The British School of Monaco is a safe and creative environment where students are supported, stimulated and challenged. We celebrate our students' success and help them to overcome challenges with courage, resilience and curiosity. The British School of Monaco recognises that the ability to endure

and overcome sustained challenges is an essential part of the path to success and helps develop character and spirit.

Our curriculum is designed on the National Curriculum for England and Wales through the Cambridge International Curriculum and tempered to our specific location and to the founding principles of the school. It focuses on investigating concepts in greater depth and the development of mastery. Explicit teaching and exploration of reasoning and problem solving, along with cross-curricular learning, is a critical differentiator in our curriculum.

The importance of language and culture is at the heart of learning at the British School of Monaco. There is a strong focus on developing our students' love for and exposure to literature, and the notion of how to articulate thoughts and ideas with appropriate and challenging vocabulary is of central importance in all subjects. Detailed long-term, medium term and short-term planning facilitate curriculum delivery for each subject's specific scheme of work. See the Whole School Curriculum Policy, 4.02 and separate subject policies, 4.04 - 4.12.
