

# Grade Equivalent Table

Entry into the British School of Monaco is based on the child's age as at **31st August in the year of entry**. **While we will also take into account an applicant's current grade or class, a student will not be placed above the year he/she would normally enter into our programme.**

We believe that children thrive best, both socially and academically, when educated alongside peers of the same age.

The 31st August cut-off date is in line with British and other international schools offering the English National Curriculum.

The table of equivalent grades is a helpful reference but normally students applying to our school will abide by this policy.

*\*We do not offer a programme for three or four year olds: the earliest entry point is, therefore, Year 1 for five year olds.*
